Seven Million People In This Country

Of the province Saskatchewan showed the largest ratio of increase having jumped in population from 21,379 to 453,208.

HUNTER HOTEL OPENING DRAWS BIG CROWDS

With a grand banquet and dance the new Hunter hotel was opened on Thursday evening last when most of Bassano's populace took advantage of the hospitality of Mr. J. H. Hunter to inspect the hotel.

General expression of admiration at the style, and the fittings were given vent to on all hands. The tables in the dining room were laid for 300 and all very sitting down the tables were filled. Dancing opened punctually at nine with Granville Lewis as the pianist.

A welcome hall was called at midnight for the banquet after which they were ones for "Hunter, Hunter." However Mr. Hunter preferred to remain modestly in the background. Mr. Louis Williams of Seattle who has extensive interests around Bassano the weapon mounted the chair and gave expression to the general appreciation felt for the hospitality of Mr. Hunter, and admiration of his new hotel. In mode and modernness of fittings Mr. Williams

described it as equal to anything at present even in Calgary. Every attention had been paid to the smallest details and he remarked upon the fact that the hotel was lucky in its location in as much as Bassano had exceptionally bright prospects for a town of its size. Claiming credit for the fact that he had been responsible for populating the Bassano district to a great extent, in his capacity of land agent for the C. P. R. having brought in about seventy-five settlers he expressed the hope that more into such a desirable district that was bound to bring into importance on account of its natural advantages.

Cheers were heartily given for Mr. Hunter as the close of the banquet and dancing was again resumed for an hour.

Particular admiration was expressed for the sanitary arrangement which are modern in every respect even to the installation of bath, a convenience that travellers will very much appreciate.

Under the management of Mr. W. Duffy the hotel promises to be one of the best conducted in the countryside.

Canadian Northern May Come Into Bassano

Absence of Canals and Ditches North May be Encouraging Them To Push Southern Branch Through To Lethbridge

That a second railroad, was making determined efforts to penetrate Bassano on its way south, was the announcement made by Mr. Louis Williams at the opening banquet and dance of the Hunter hotel Thursday night. General rumor has for some time accredited the C. N. R. with the intention of pushing its steel from its Saskatoon (Calgary) branch south to Lethbridge passing through Bassano.

A very good reason is quoted why the C. N. R. should choose this point in preference to any other in making its southern flight.

The C. P. R. with its powerful grip upon the irrigated area can make it highly expensive for any other railway to cross the innumerable ditches

and laterals. The section of which Bassano is the center, from the Red Deer due south cannot be irrigated it was estimated this year on account of the highway of it and as the C. P. R. has been disposing of its dry unirrigated lands at prices governed by that. These will therefore be no ditches and laterals between Bassano and the Red Deer, and for that reason it is surmised the C. N. R. will attempt to make another line south to Lethbridge from a junction on the Saskatoon-Calgary line.

Various surmises are expressed as to why the C. P. R. when at one time a line from Bladbury to Kinlaine was displayed on all their irrigation belt maps, should suddenly switch it south to Bassano, and it is generally stated that it may have been with the intention of heading off the territory from the C. N. R.

BASSANO A TOWN WITH A FUTURE

Glen Weidrich of Bassano, stated, to The Alberta that many more people than it is generally thought were affected by the failure of the C. P. R. directors to announce the drop for Bassano. Never was there such a boom in the history of that progressive little town, and outside speculators invested heavily.

"There is no panic, by any means, though," said Mr. Weidrich, "and Bassano residents have every confidence in the future of their town."—Alberta.

It is learned that Bassano's population in the recent census was 45,000. Since that was taken nearly 100 people have been added, so that from within a few years ago Bassano has sprung into a live town of 1,000, easily ahead of her rivals in the east here. This is a matter for self congratulation.

The Glitchen bye-election, the second in thirteen months is on. Harold W. Riley, Conservative, a brother of E. J. Riley, the independent candidate in the last campaign, is pitted against J. P. McArthur.

THE LUKWARM EYE-ELECTION
Liberal, brother of the late Glitchen member, A. J. McArthur, Bassano, better than in the federal election secured a slight Liberal majority in the last bye-election and confidence is expressed by Liberal Liberals that they will sweep the district. Following the fierce federal fight the campaign so far is very lukewarm and from all indications it is not likely to improve in interest before polling day which is rapidly approaching. Both parties are holding preliminary meetings this week in Bassano and besides throwing light on the one lone issue of whether the Province shall retain or throw away a few million dollars of its own money they should inspire enthusiasm locally in the fight.

Have you thought out that essay on

Bassano And Its Prospects

Surely the very phrase suggests a multitude of ideas without much brain exertion.

There have been four campaigns yet to the appeal made by Pegler and Darby for essays on this all absorbing topic of our own home town.

In every town in Bassano a bird of passage in Bassano without care or thought of what will eventually become in the town. Fifteen dollars is a substantial to express your patriotism and knowledge of the district is not to be sniffed at.

There is time still, until Oct. 21 when the contest closes. And what are the children doing? Too much chore or too much play? Surely they will be able to bring together their ideas about their own town before very long. We are waiting for them.

Let us repeat the conditions again.

All essays are to be sent to the offices of Pegler and Darby and are to be in by Oct. 20.

The subject is to be on Bassano and its prospects, showing what may result through its advantages of gas, and water power, its railroad possibilities, its coal and wheat land, and through close settlement through irrigation.

The prize winning essays are to be the property of the Bassano Board of Trade the board reserving the right to publish them.

Mr. Golden has kindly consented to act as judge, and she will receive the assistance of two other reputable citizens yet to be named.

School children's essays are to be written without the help of the teacher, and they may compete if they care to, for both prizes.

The results will be published in the columns of the Bassano News.

LIBERALS WILL HOLD

ENLIGHTENING MEETING

AT THE EUREKA

All the people of Bassano are cordially invited to attend the public meeting in the Eureka Theatre, Saturday night, when the virtues of Liberalism in the Province of Alberta will be explained by no less a personage than the Premier, Hon. A. L. SIMON. The meeting is called to further the candidature of Mr. J. P. McArthur, brother of the late Mr. A. J. McArthur, M. P. for Calgary, and it should be full of enlightenment for the electors. It will be shown how the present Premier, saved the Province from heavy financial loss at a time when it was seemingly irretrievably added with a questionable railway promotion scheme which committed the Province to huge expenditures.

In addition to the Premier, there will be the candidate Mr. McArthur, who is highly respected in the Liberal ranks and the members of the Quilston district of which he has been a resident for a great number of years. Mr. Spurr, M. P. for Calgary, is another speaker who has a number of convincing arguments at his finger tips.

Mr. G. M. Cairns of Glendon was in Bassano this week.

Mrs. A. Bell, wife of the proprietor of the Royal hotel was visiting her sister Mrs. A. J. Gerber this week.

Mrs. Bishop and her brother Mr. Claude Kelly were in Calgary for the week end.

Rapidly increasing business is compelling Mr. W. J. Robinson to engage still another tenant who will arrive early next week to take up his duties.

The new hotel is rapidly receiving its outer coating of brick that will make it the handsomest building in town besides the school.

Regret for the death of Mrs. G. M. Pierce was expressed feelingly by Mr. Louis Williams at the opening of the Minister Hotel Thursday night, and sympathy was extended to Mr. Pierce.

Mr. W. J. Robinson announces his intention of putting up an elaborate addition to his building on second avenue. His stock is crowding out the present accommodation and as soon as the weather clears up again he will make a beginning. The present building will be pushed to the back of the lot and used as a storeroom, while the addition will be put on the front with handsome windows.

Pegler and Derby are now of Bassano and Calgary. By a deal consummated last week the Pioneer Lumber yard secured a flourishing real estate business on Centre St. Calgary and thus secured a foothold in the booming business of the big city. Mr. R. C. Pegler is assuming charge of the Calgary end, while Mr. Richard Derby will remain in Bassano to look after the numerous interests of the firm here.

The managers of the Eureka wish to announce that the incident of Saturday night last was one of the slightest nature being wholly caused by the inability of the new operation. Owing to the fact that the time have to be in perfect condition before they can pass ready through the machine, a pile left in the line caused all the trouble.

The audience were startled most by the word "fire" rather than the incident itself. The machine used in the theatre is of the latest type and is as near fire-proof as mechanical devices can make it.

Make Summer Resort of Bassano

Mr. W. G. Bligh for twenty seven years irrigation engineer for the Indian government was a visitor to Bassano Tuesday, and made a complete inspection of the Dam, and the ditching work connected with it. He was impressed with the necessity of a big dam for Bassano, and thought that the C. P. R. would be inclined to make a show place, of the Dam when it is done. As an expert in irrigation, he knows that when the Dam is safe and a half long is completed, it would form a fine lake at the Bassano while the water would be backed twelve miles up stream.

Mr. Bligh is the possessor of an interesting specimen of antique printing of the nineteenth and sixteenth centuries. They are approaching three centuries old and include some of the finest printing, giving descriptions of incidents of the English Civil war.
